TECHNICAL CARD-INDEX

REF. N° GREENSORB® AQUA

GREENSORB® AQUA

1. APPLICATIONS

GREENSORB® AQUA is a 100% Natural treated product.
GREENSORB® AQUA is manufactured in France, under French Patent. It is Biodegradable, Organic, Vegetal, renewable, recyclable (ASR Patented Concept)
GREENSORB® AQUA is Hydrophobic (absorbs oil, not water).
GREENSORB® AQUA has a fast efficiency power.
GREENSORB® AQUA has a high capacity absorption power.
GREENSORB® AQUA is used in order to clean by absorption oils and hydrocarbons spilled on wet floors and on the water.

2. PROPERTIES

GREENSORB® AQUA is Hydrophobic and moves apart easily from water when hydrocarbons are absorbed.
GREENSORB® AQUA is a natural product, biodegradable, non toxic and easy to use.
GREENSORB® AQUA absorbs quickly oil from soils or from the water. The product surfaces on the water.
GREENSORB® AQUA has a very high absorbing Power.
GREENSORB® AQUA is easy to dispose of.
GREENSORB® AQUA Absorbs : Petrol, Kerosene, Gasoil, engine oil, mineral oils, Hydraulic liquids, edible oils, paint oils, synthetic oils, organic solvents, hydrocarbons, P.C.B (Pyralene), inks, solvents with chlorine, alcohols.

3. INSTRUCTIONS

Throw GREENSORB® AQUA on the polluted area.
Wait until the total absorption : GREENSORB® AQUA absorbs hydrocarbons without absorbing water, and stays on the surface. At the end, GREENSORB® AQUA changes of color.
Pick up with a sifter or a Pump the polluted granules.

4. CHARACTERISTICS

Natural : Granules of Cellulose Fiber, chemically neutral.
Non Abrasive, non irritant, non toxic
BIODEGRADABLE
Absorption Capacity : 1 L absorbs 1 L of hydrocarbons (for the heaviest products : 1 L absorbs 0.8L)

5. STORAGE AND LABELLING

GRANOFIBRE H is not submitted to any label.

The Information, recommendations and instructions contained in the present note, are given only as an indication and do not constitute absolute rules, because of certain elements being able to be unnoticeable to our customers. This product matches with a definite use; this one must be respected by the user. In the case of a different use, the user will have to carry out preliminary tests to make sure that the product is appropriate for this new purpose; the handling of the products, the implementation, application, in no conformity with the said destination, advices or recommendations of use, could not engage the responsibility of our company.
